MEMORANDUM FOR: Deputy Director for Administration

FROM : Clifford D. May, Jr.
Director of Data Processing

SUBJECT : Assistance to the Defense Supply Agency

REFERENCE : a. HR ☐ Annex E, Procedures to Obtain
Approval for CIA Assistance to
Other Government Agencies
b. OGC 76-1949, dtd 27 Jul 76, Subj:
Procedures for Rendering Advice
Pursuant to HR ☐ Annex E

STATINTL

STATINTL

1. The Office of Data Processing requests approval to provide the Defense Supply Agency (DSA) with the assistance outlined below.

a. Description of activity: Technical advice concerning CIA's experience with COMTEN and MEMOREX communication controllers. The DSA Support Center at Cameron Station plans to install this type of equipment to support terminals. Mr. William Ciason has contacted ODP's data communications technicians and asked for a briefing on our experience with these communications controllers.

b. Location of assistance: CIA Headquarters Building.

c. Organization involved: Office of Data Processing.

d. Basis for activity: The "Brook's Bill" (40 U.S.C. 759) encourages executive agencies to share and exchange information related to data processing technology. CIA is probably the only government agency in the Washington, D. C. area with practical experience with COMTEN and MEMOREX communication controllers.

e. Financial costs: None, other than personnel time spent in providing technical information.

f. Manpower: One to three ODP employees are expected to spend no more than ten manhours providing technical information.

g. Agency employee to consult for additional information: Mr.

STATINTL

2. ODP believes the Agency has authority to provide the requested assistance and that such assistance is uncontroversial and in the best interest of the Federal Government. We, therefore, recommend that the procedure described in Reference b. be used to expedite approval.
